Subject: Microsoft Settlement

I would like to express my opinion that the proposed Microsoft settlement does not go far enough in punishing Microsoft for anti-competitive practices or in motivating them to refrain from anti-competitive behavior in the future. Microsoft has shown itself to be very willing to ignore government instructions affecting their style of business in the past, and I believe that they will continue to do so in the future if the proposed settlement is accepted. The proposed settlement does not contain penalties that are severe enough to keep Microsoft from engaging in anti-competitive behavior in the future.

Thank you,
Christian Wenger
